

## GTVK/S 2 / Clevis Master Set

The fact that the hook functions both as a connecting and a shortening element, there is no additional connecting element needed. The chain may attached directly to the captive coupling of the shortening element.

This master set consists of a T/S Master Ring and two welded-in VK/S Shortening Hooks for the creation of Double Leg chain slings in the assembled system.

Code	Chain Size	WLL (90°- 45°) (lb)	WLL (45°- 30°) (lb)	Fits on single hook DIN 15401	Fits on double hook DIN 15402	<b>e</b> (inch)	<b>d</b> (inch)	<b>t</b> (inch)	<b>W</b> (inch)	Weight (lbs/pc)	<b>Quantity</b> per package
