

HKSB/S / Clevis Safety Hook

This clevis safety hook closes and locks automatically and has a significantly larger jaw opening than the HKS/S Clevis Sling Hook. For safety reasons, it cannot be opened under load. The hook is suitable for **straight pull only** and that load must not be placed on the tip of the hook or the safety latch.

Assembly is quick and easy and does not require any special tools, but must be performed by a qualified person.

Code	Chain Size	WLL (lb)	e (inch)	h (inch)	a (inch)	b (inch)	d (inch)	g (inch)	s max. (inch)	Weight (lbs/pc)	Quantity per package
