

SLIDING RATCHET STRAP HOW-TO GUIDE

Part numbers:
SLIDE12SEF-Y
SLIDE16SEF-GRY
SLIDE20SEF-BLU

Release and open the ratchet handle to 180°.

Attach end fittings to E-Track.

Move the red sliding bar to the **"ADJUST"** position.

Pull webbing to adjust the ratchet to your desired position.

Move the red sliding bar to the **"LOCK"** position.

Pull excess webbing through the mandrel toward the red sliding bar.

Close the ratchet.

While holding excess webbing taut, ratchet the handle until load is secure.

Bundle excess webbing and lock handle in place.

TO RELEASE:

1. Release ratchet handle and open ratchet completely.
2. Move red sliding bar to the "adjust" position.
3. Pull webbing from both ends of the ratchet to loosen strap.
