

## TJP / TJPU

## Designed for (thin) sheet metal lifting without minimum WLL

## **Application:**

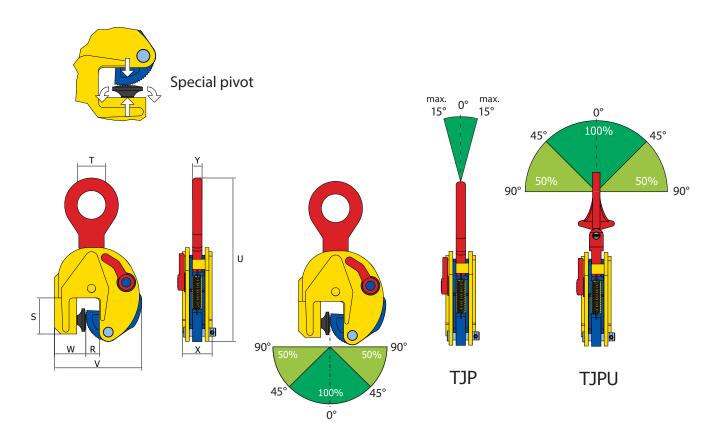

- For vertical lifting and transporting of (thin) sheet metal
- Jaw openings available from: 0 to .78 in.
- Working load limit (WLL) 551 2,200 lbs
- No min. WLL

Note: Surface hardness of the material lifted must not exceed 37 HRC/345 Hb

## **Features and Benefits:**

- Equipped with a special pivot which will adapt itself to the load of the clamp generating extra friction, eliminating the chance of slipping loads
- TJPU features an articulated lifting shackle for universal lifting flexibility at various angles
- TJP features a standard lifting shackle
- Always equipped with a safety mechanism, ensuring the clamp does not slip when lifting force is applied and when load is being lowered
- The clamp is locked in closed as well as in open position
- Lightweight design for easy handling
- Tough quality heavy-duty welded shell body
- Maintenance-friendly. Easy to exchange parts are available upon request
